- To comply with Company policies and procedures.
- Supervise and co-ordinate on-site erection squads to ensure an efficient method of build to the required build programme agreed by each Site Manager.
- Communicating and scheduling work with Site Manager and ensure targets are achieved and work is to the high quality expected.
- Ensure craneage requirements co-ordinated timeously.
- Effective daily use of Company information systems and databases.
- To comply with the Company's H&S policy and complete the relevant documentation required on a regular basis (method statements/risk assessments/lifting plans etc).

- Liaise with various departments within the Company to ensure the highest possible customer care performance/satisfaction and complete all the relevant inspection documentation.
- To continually monitor the product quality in line with the quality procedures in place and to assist in the continuous improvement of our product and service.
- Continually liaise with production departments to ensure up to date activities on site are communicated and any changes to programmes documented.
- Ensure prompt collection and sign-off of customer conformity sheets in line with finance department requirements.
- Ensure timeous signing off of structural frames and forwarding of paperwork to the relevant department.
- Have personal drive with ability to achieve.
- Train, mentor and monitor junior members of the contract management team, as and when required.

Key Personnel Skills :

1. Excellent communication skills.
2. Basic understanding of computer usage in word and excel in particular.
3. Have good knowledge and hands-on experience of modern methods of construction in timber frame.
4. Committed with ability to demonstrate organisational and interpersonal skills.
5. Personal drive with a “can do” attitude.
6. Ability to work effectively with minimal supervision.
7. Ability to identify and resolve problems in a timely manner.
8. Commercial awareness and ability to focus on ensuring total customer satisfaction.

Working Relationships :

Effective working relationships are an essential part of daily working life in Oregon :-

Internal – All colleagues within all departments.

External – Customers, sub-contractors, suppliers, NHBC and HSE.

Decision Making :

- Matters relating to on-site erection squads.
- Craneage requirements out with tolerances.
- Delivery scheduling in conjunction with the production department.
- Programming/movement of kit delivery dates.
- Actions required ensuring company are carrying out duties responsibly under the Health & Safety at Work Act or associated legislation.

This job description is current at the time of issue. Variation may occur to these duties to reflect changes in, or to, company procedures and will be advised to you by your line manager.
